

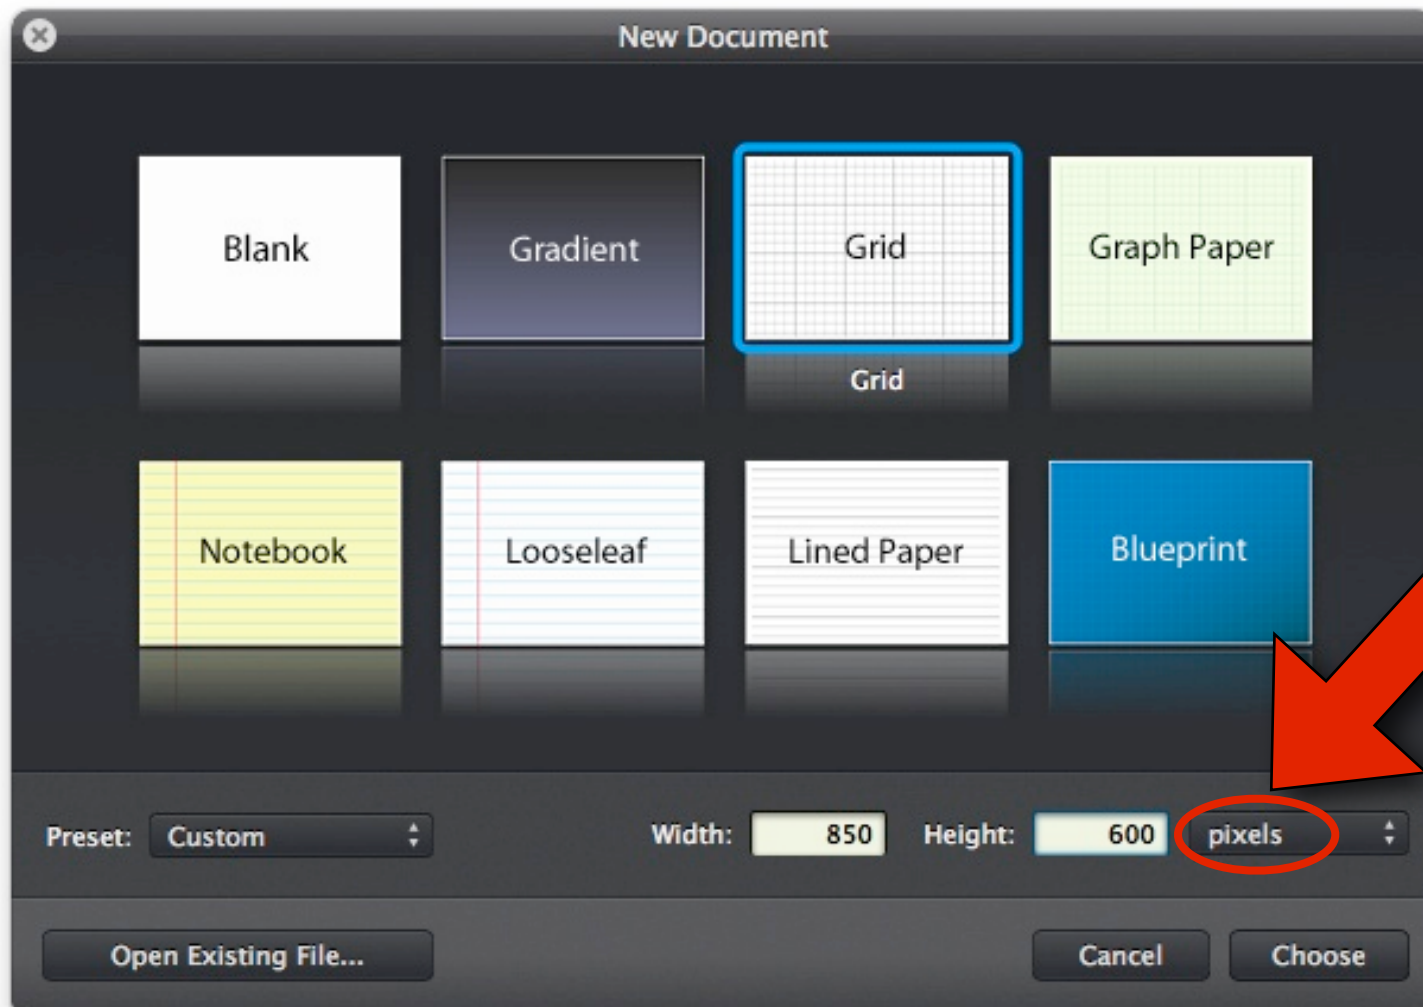

Graphic Tutorial

Design a Logo with Curved Text

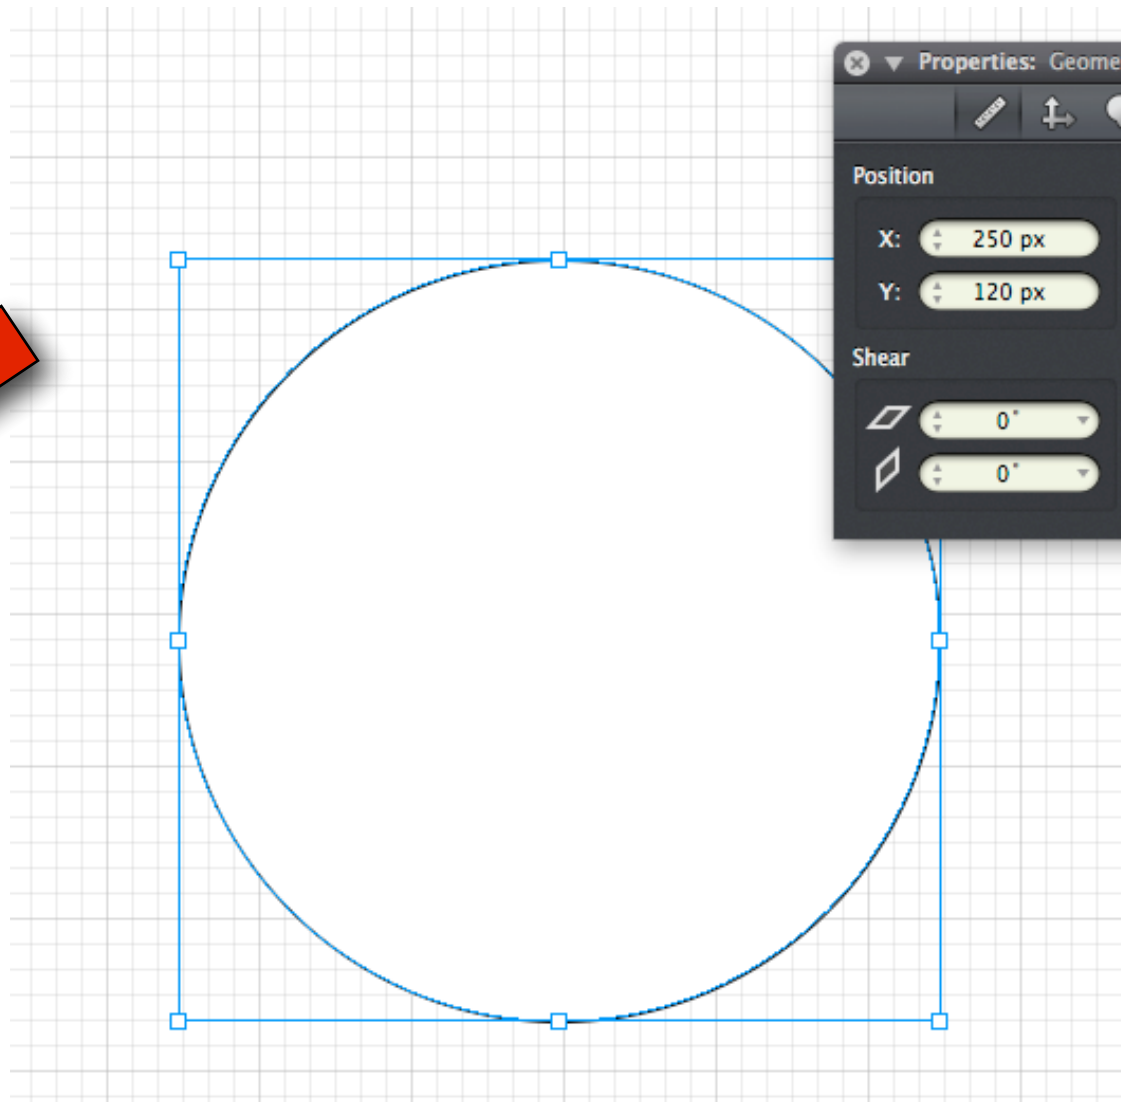

Step 1 - Create a New Document

- ➔ Open “Graphic”
- ➔ Click “Create a New Document”
- ➔ Select the “Grid”
- ➔ Set the document units to **pixels** to: **850** pixels wide by **650** pixels high.

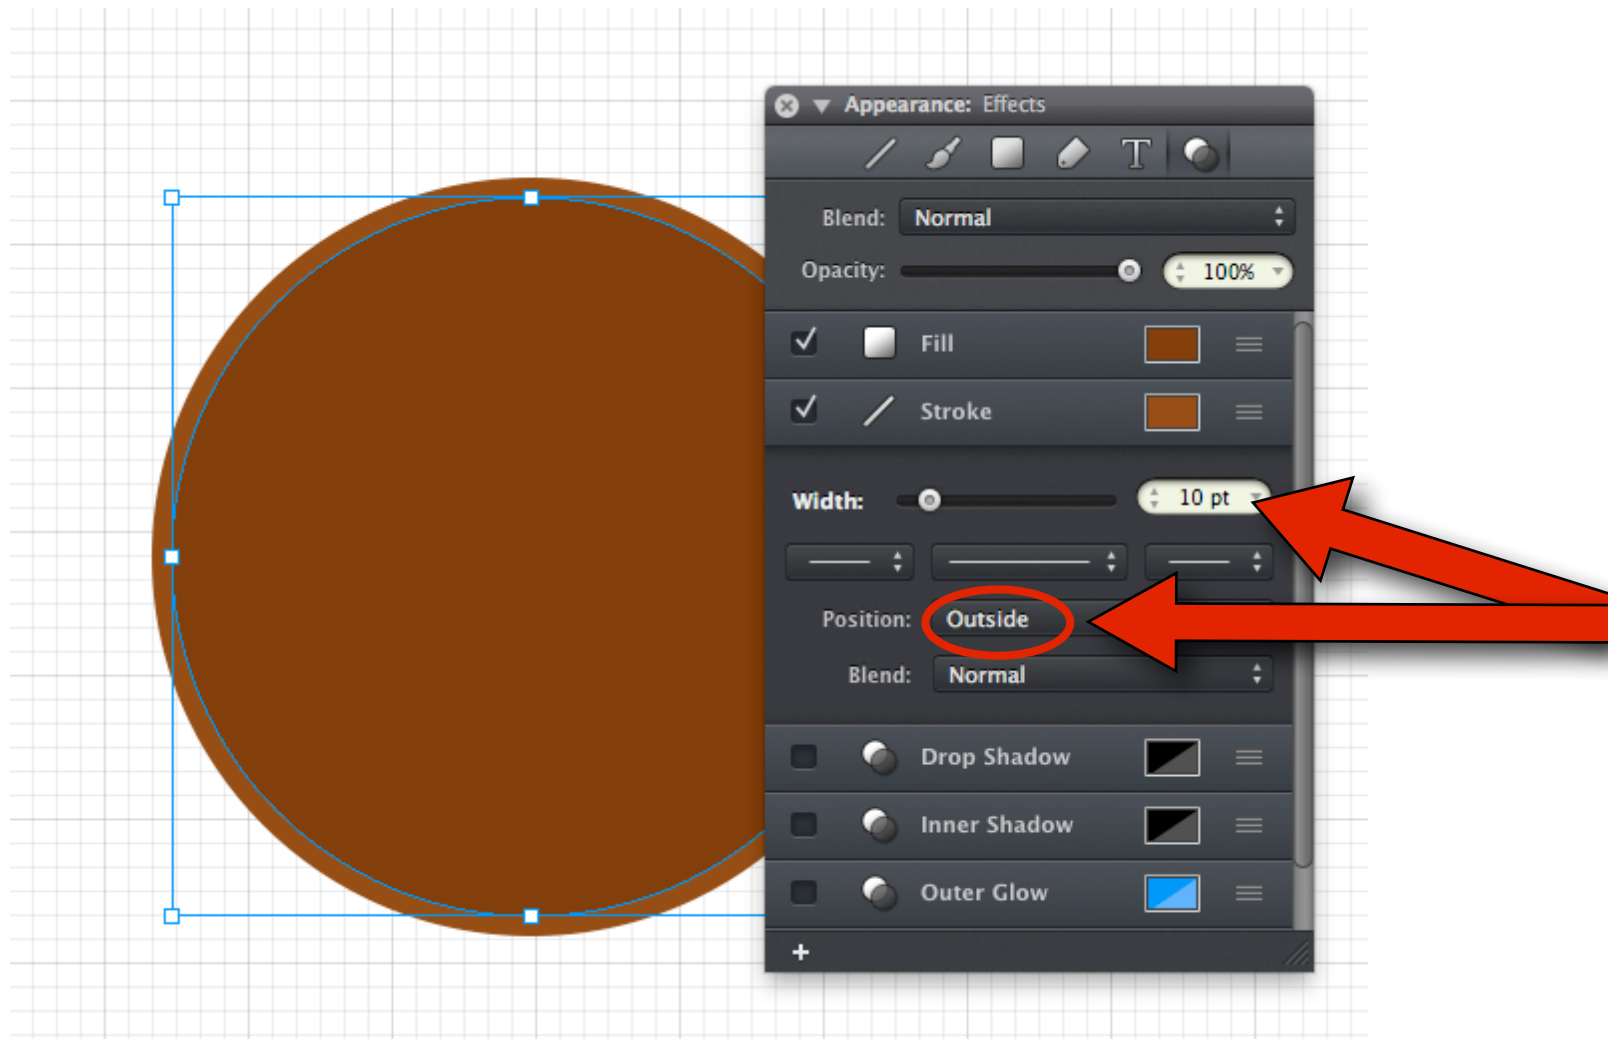

Step 2 - Draw an Ellipse (Circle)

- ➔ Select the **Ellipse Tool** from the toolbar.
- ➔ Create a Circle

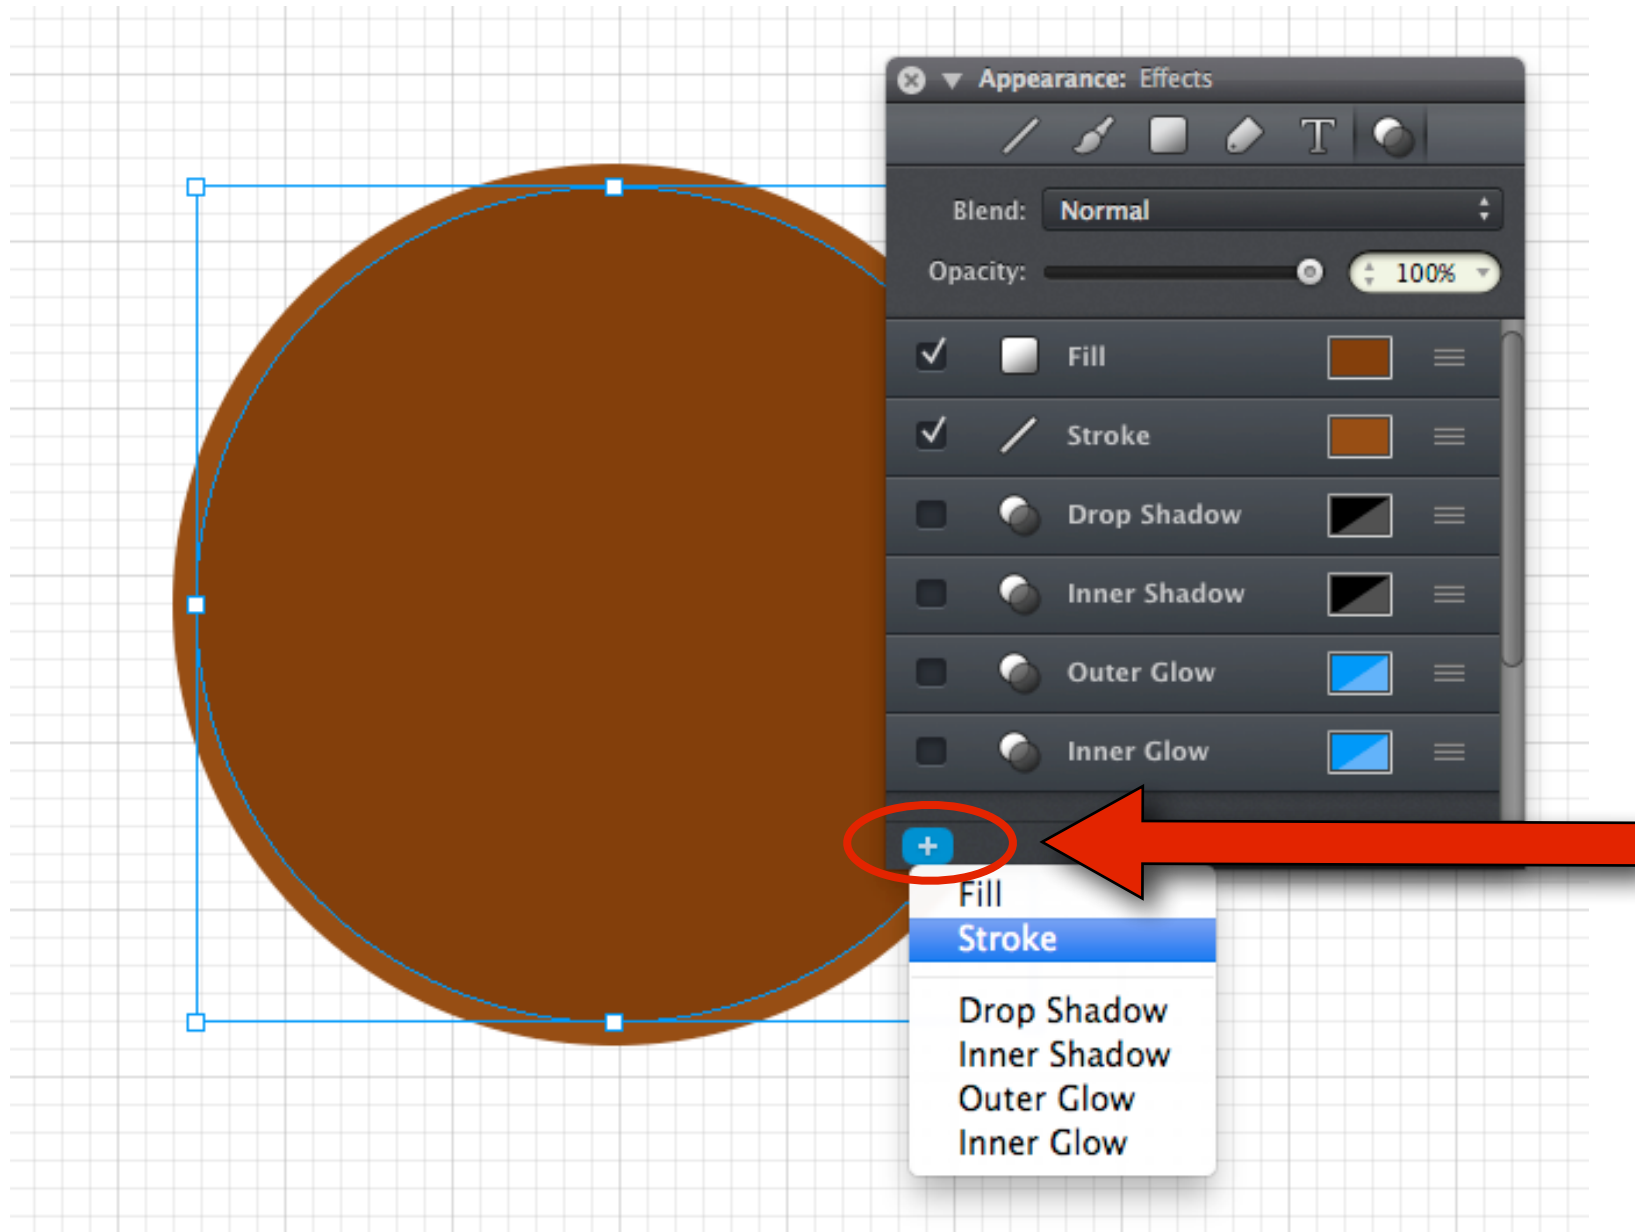

Step 3 - Choose a Fill Color and Outline Color

- ➔ On the Right Hand side, in the “Appearance” click the “White & Black Circle”
- ➔ Choose a **color** for the **Shape**.
- ➔ Choose a **second color** for the **Stroke**.
- ➔ Next, click on the **Stroke bar**.
- ➔ Set the **stroke width** to **10 pt** and the position setting to **Outside**.

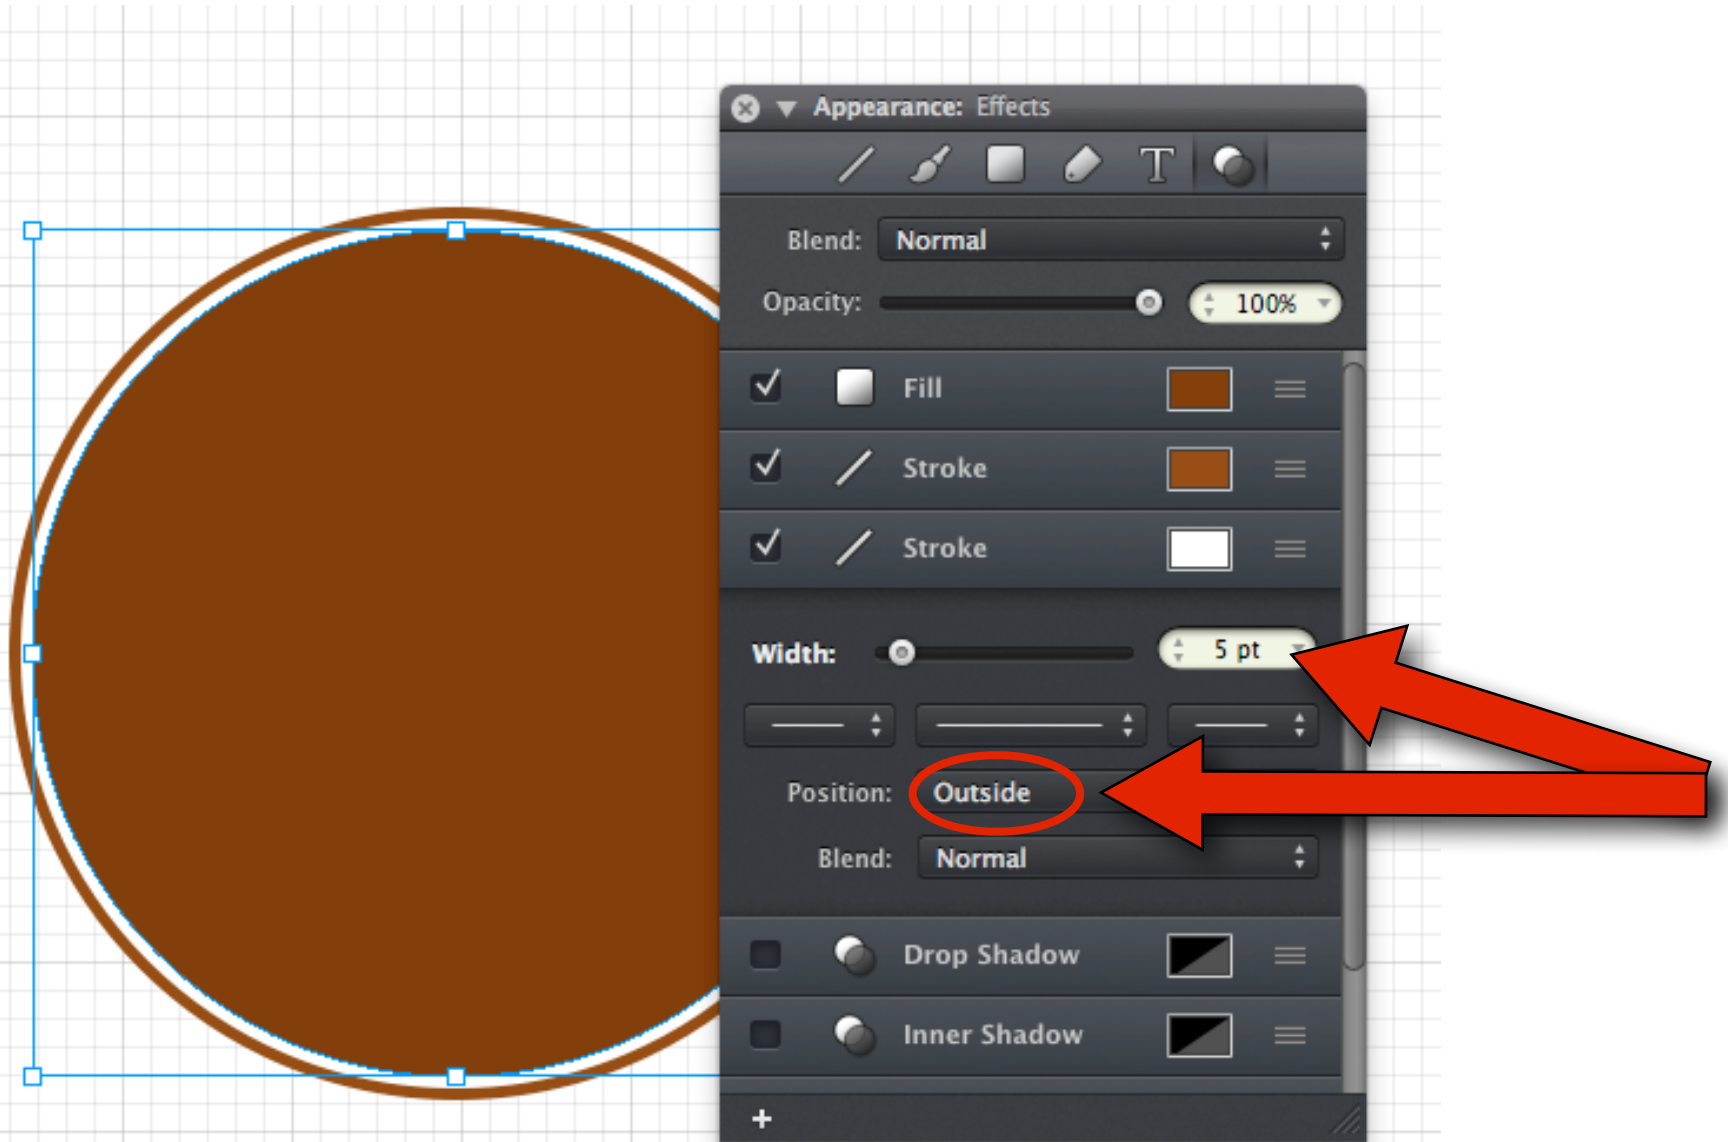

Step 4 - Add a Second Stroke

- ➔ Click on the '+' button at the bottom of the panel
- ➔ Click 'Stroke'

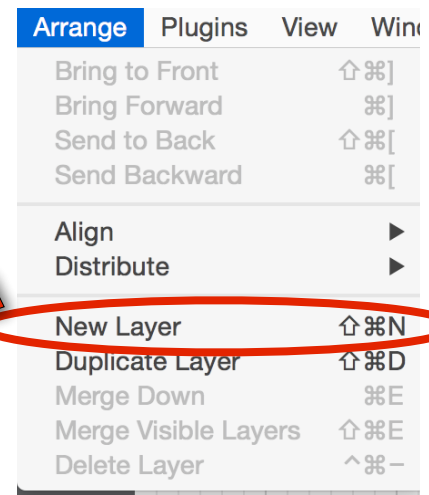

Step 5 - Set the Border Color

- ➔ Set the second stroke's width to **5 pt**.
- ➔ Choose a **color**
- ➔ Set its position setting to **Outside**.

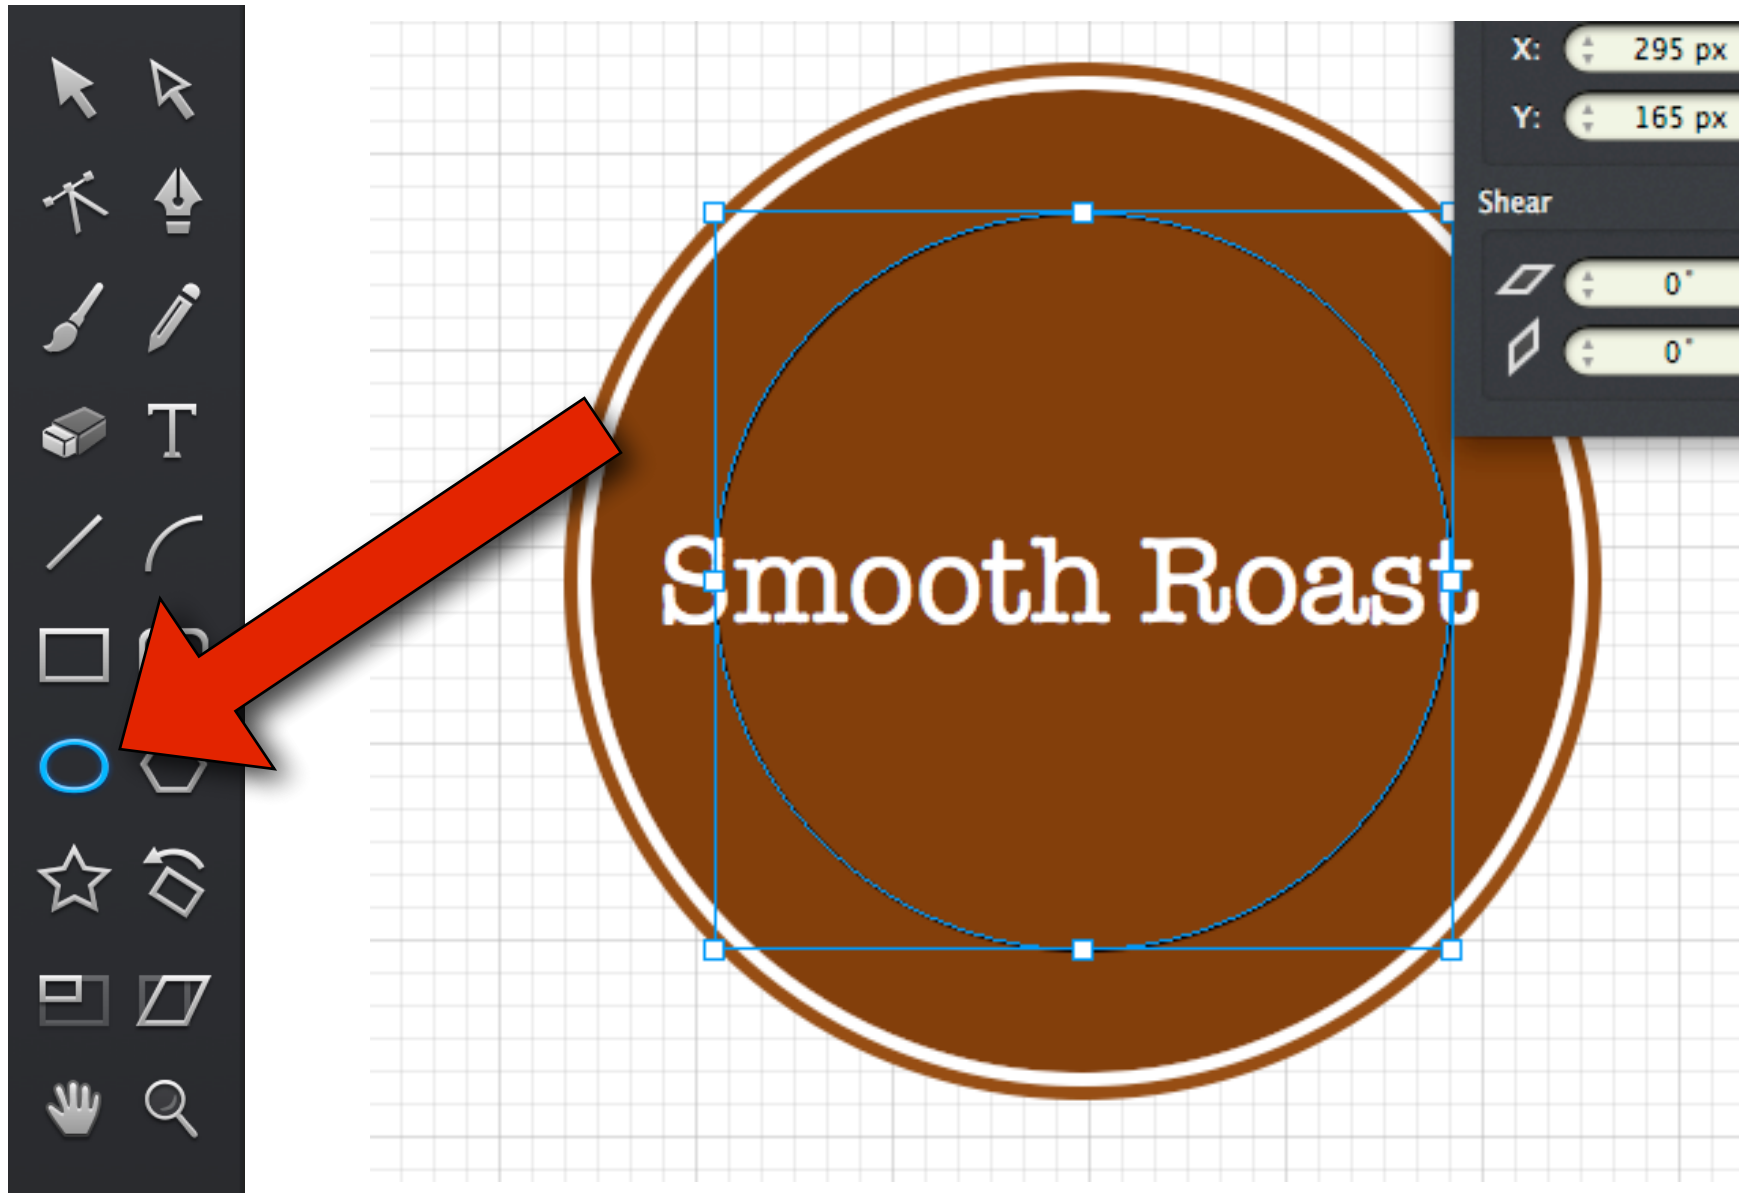

Step 6 - Add Text

- ➔ Create a new layer by clicking: **Arrange > New Layer**
- ➔ Select the **Text Tool** from the toolbar
- ➔ **Click and drag** a text box on top of the circle.
- ➔ Choose any **font, size, and color** for the text.

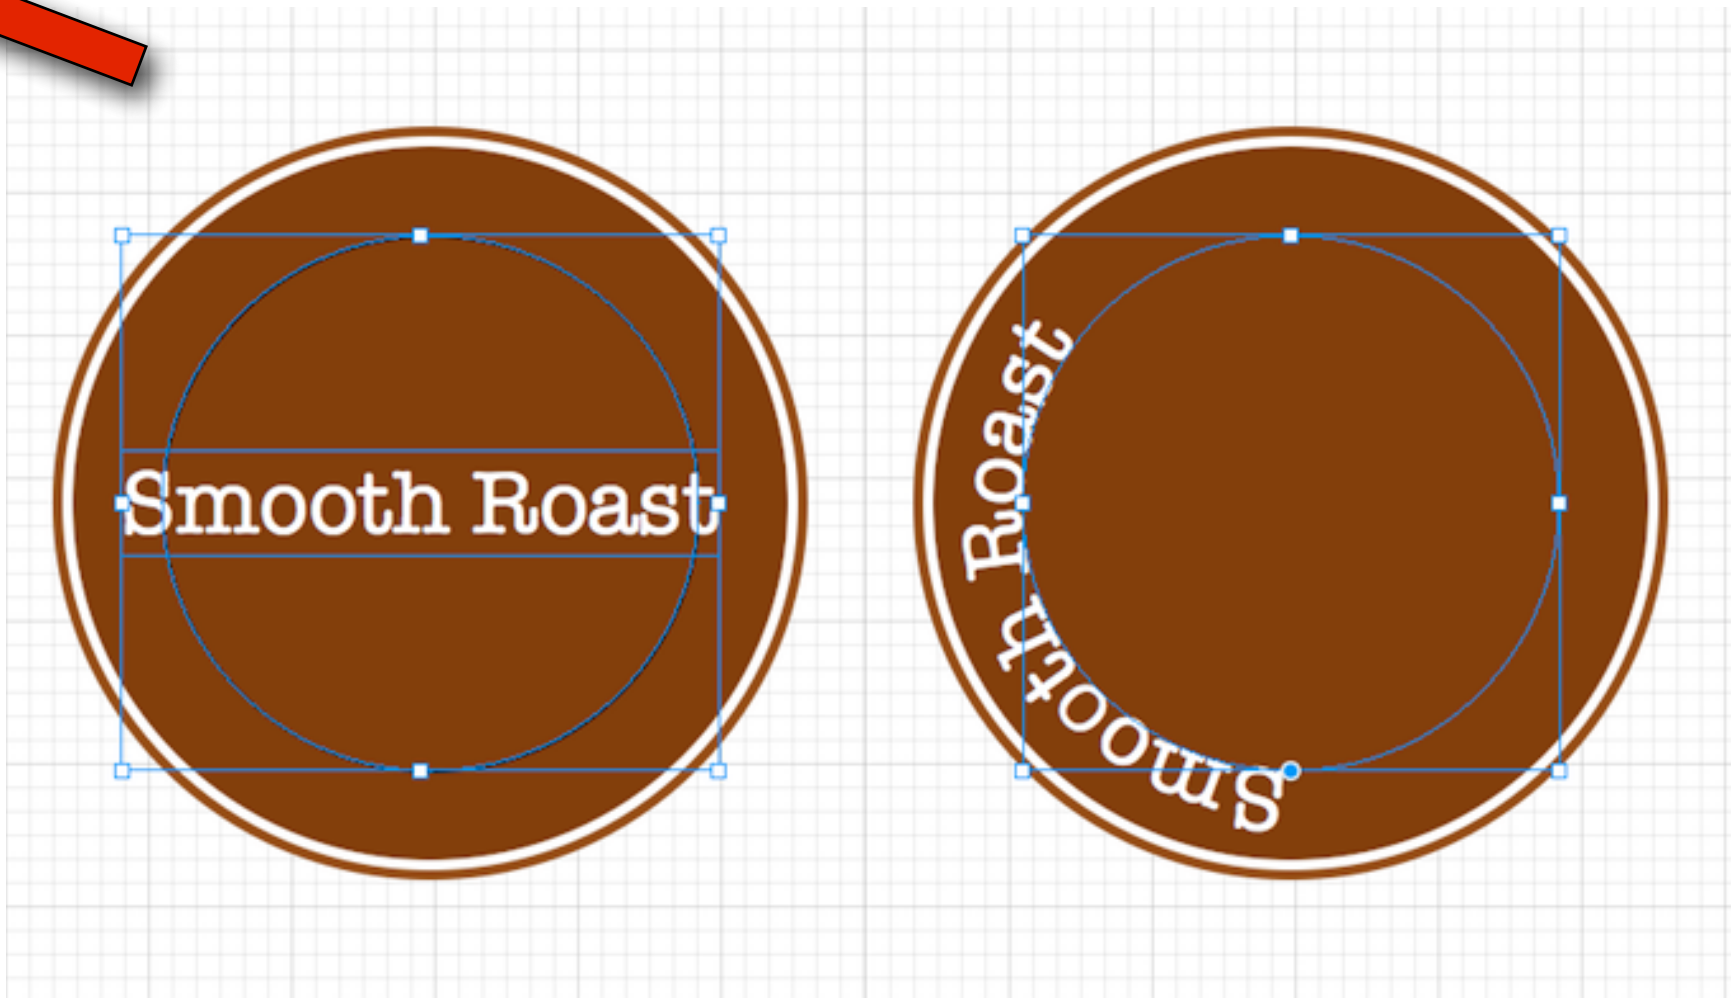

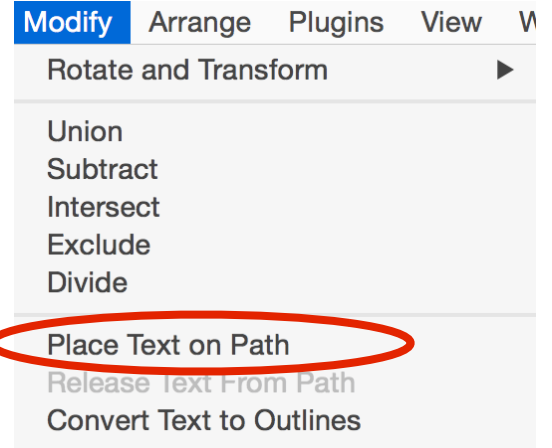

Step 7 - Create a Second Ellipse (Circle)

- ➔ Select the **Ellipse Tool** again from the toolbar.
- ➔ This smaller circle should be centered inside the large circle.

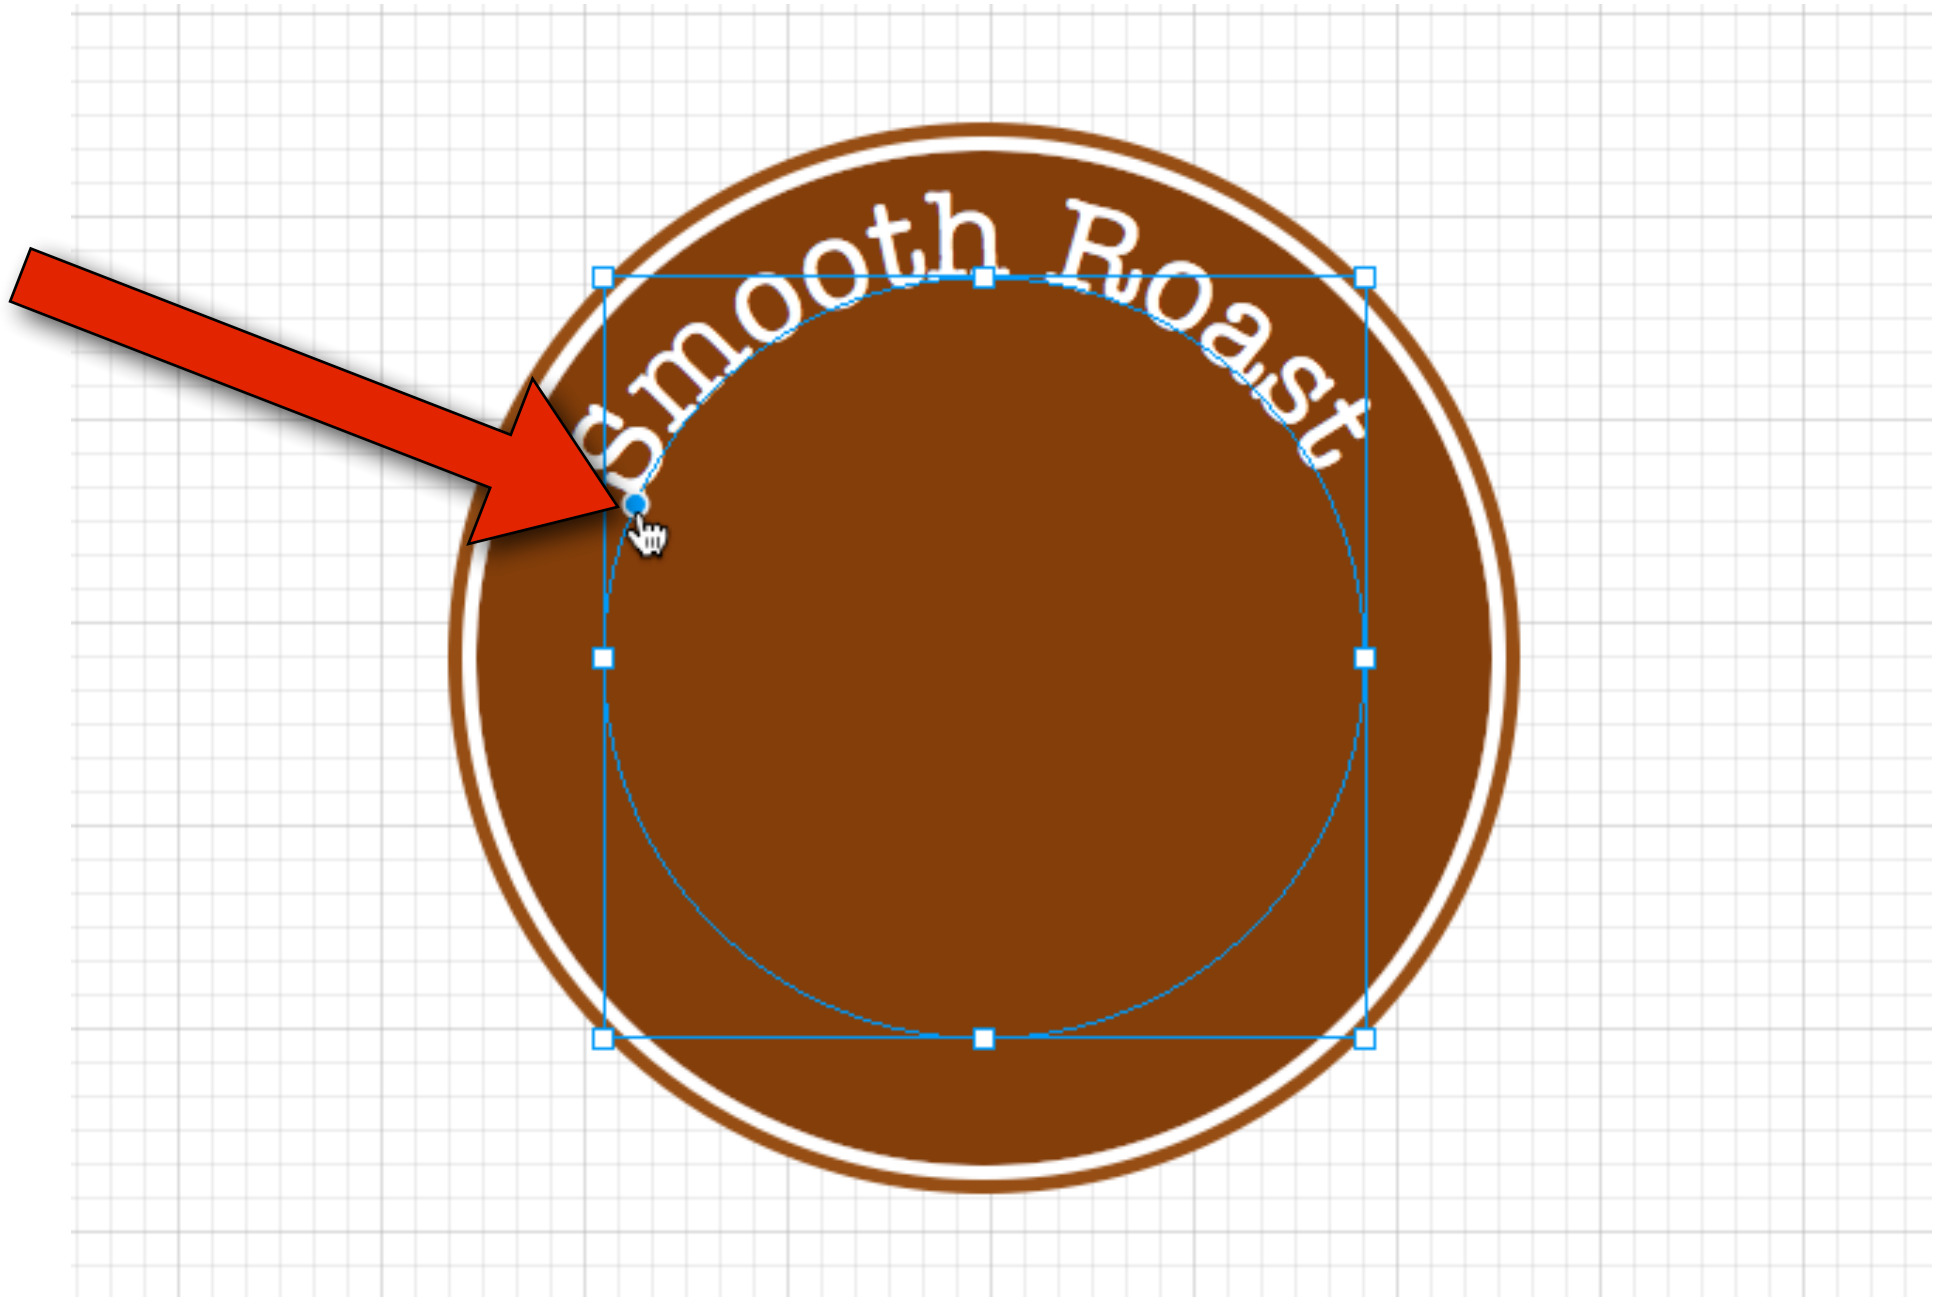

Step 8 - Curve the Text

- ➔ Choose the **Move Tool** from the toolbar
- ➔ HOLD **Shift** and click **BOTH** the text **AND** the smaller circle you just created.
- ➔ Select **Modify > Place Text on Path**

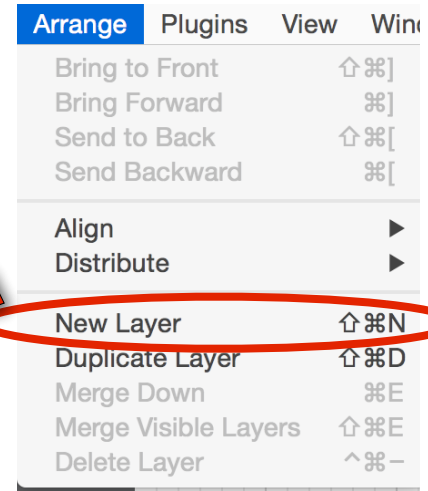

Step 9 - Rotate the Curved Text

➔ Click the **Blue circle** and **drag** to rotate the text.

Step 10 - Add a New Layer and Second Text Box

- ➔ Create a third layer by choosing **Arrange > New Layer**
- ➔ Use the **Text Tool (T)** create a second text box.
- ➔ Use the **Ellipse Tool** create another circle.

Step 11 - Curve the Text

- ➔ Select the **Move Tool**.
- ➔ HOLD **Shift** and click **BOTH** the text **AND** the smaller circle you just created.
- ➔ Select **Modify > Place Text on Path**

Step 12 - Flip and Rotate the Bottom Text

- ➔ The text will initially be upside down.
- ➔ Select **Modify > Reverse Path Direction**.
- ➔ Click and drag the **Blue Circle** to rotate the text.

Step 13 - Create an interior border

- ➔ Create a new layer by selecting **Arrange > New Layer**.
- ➔ Use the **Ellipse Tool** to draw a circle
- ➔ Fill the circle with a color and add the stroke with a width of **2.5 pt** and the stroke color of **white**.

Step 14 - Import an Image

- ➔ Google Image Search “**Coffee Bean SVG**”
- ➔ Find the picture you want.
- ➔ **Drag** the picture you want into Graphic.

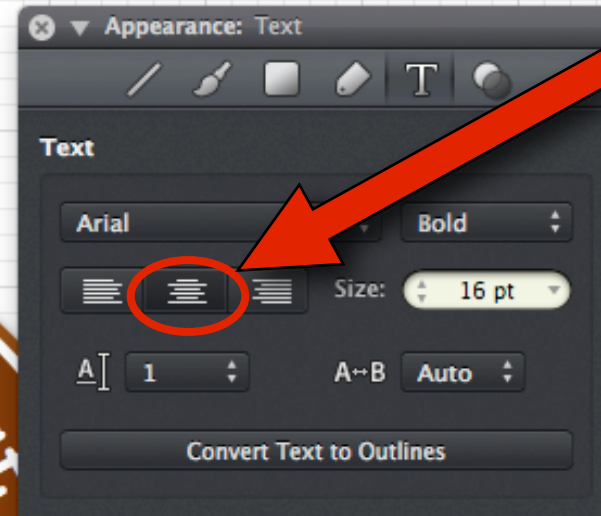

Step 15 - Duplicate the Beans

- ➔ Select the **Move Tool (V)**
- ➔ Select **Edit > Copy**
- ➔ Select **Edit > Paste**

Step 16 - Add Additional Text

- ➔ Select the **Text Tool** and create a text box.
- ➔ Choose any font, style, color and size.
- ➔ Set the text alignment to **center**
- ➔ Repeat these same steps to create the right side label with the text.

Finished Design

➔ Congratulations, you've finished your curved text logo tutorial!
